DEFLEURE Home Collection

DEFLEURE HOME COLLECTION IS A FURNISHING COMPANY THAT SPECIALISES IN THE DISTRIBUTION OF ITALIAN UPHOLSTERY, RATTAN FURNITURE, AND PIECES OF PETRIFIED WOOD FROM JAVA, INDONESIA.

For the last 8 years, their production has been done by small, family businesses, giving Defleure the opportunity to create hand – and custom-made pieces that reflect designers' creativity. This personal, customer-focused approach to their work has earned Defleure the appreciation of their clients and a reputation for imaginative bespoke work.

The company was born out of Dominique Quintelier's travels around the world. Working as an airline pilot, he interacted with a diversity of cultures and craftsmen which sparked an interest in different design styles. This melded with his lifelong passion for handmade furniture, prompting him to start his own furnishing company which provides elegant handmade furniture and home décor accessories.

Defleure's contribution to the Botanic Sanctuary Antwerp came in the form of an exceptional range of upholstery for the hotel's bedrooms, bar and reception. They modified bespoke chairs, bancs and sofas to meet the hotel's needs, as well as a petrified wood table for the wine cellar.

The Botanic Sanctuary Antwerp's hotel style was the perfect match for Defleure's approach to furniture, and the company was excited about the opportunity to have their collection featured in such a beautiful hospitality environment. Dominique said the company "was honoured to be part of this unique project" and that the exposure would open doors to amazing new opportunities.

Defleure prides itself on having strong working relationships with interior designers from all over the world. Based in Flanders, Belgium, their clients can be found across Europe, North America, and the Middle East. Whether they work with clients who run hotels and have showrooms or are renovating a private home and work from an office, they are eager to work with new people and take on challenging creative projects.

By continually striving to improve their designs, production, and delivery, Defleure consistently delivers high-quality products, refreshing design ideas, and excellent customer service. Communication is integral to everything they do, and with their accumulated expertise and sense of responsibility for their work, they maintain high levels of customer satisfaction no matter the circumstances.

What really impresses about Defleure is the love and care that goes into their collections. A great example is the

Belgian Pearls Home Collection, a line of furniture created together with Greet Lefèvre. Featuring a stunning rattan Mimi Chair, plush and comfortable Florence Sofa, and sophisticated Diane Table; the collection showcases the company's eye for good design and their undoubtable craftsmanship. As well as different furniture pieces, the collection comes with a set of rattan colour variations – including beach, charcoal, mint, and cognac – to ensure customers can strike the perfect note with their purchase.

In terms of accessories, Defleure really shines in their delivery of petrified wood pieces. From fruit bowls and coffee tables to soap dispensers and ornaments, their work possesses a well-finished quality that improves any interior space. ■

For more information about Defleure, its range of collections, and what they can do for you, visit their website at <https://defleure.com/>

Defleure

Home Collection

Contact with various cultures and local craftsmen by travelling around the world, partly because of his job as an airline pilot, increased Dominique's interest in all inherent design styles and fuelled his long-time passion for handmade and elegant furniture design even more.

His passion for interior design and refined furniture has prompted Dominique Quintelier to start his own home furnishings company.

The concept of Defleure is to offer high-quality, handmade and elegant contemporary furniture design and home decor accessories.
